

*Looking back, the journey began long ago on the other side of the earth. As an expat living in London, something about the treasure trove of international vinous offerings available seemingly at every corner 'off-license', expanded my somewhat shielded 'Californian' experience of wine.*

*An intense fascination was sparked, and consequently a need to learn about and taste wines from all over the planet –all the while marvelling in the diversity, complexity as well as the sheer power of a living liquid in a bottle being able to evoke such a sense of place and time.*

*Not to mention the sheer olfactory and palate delight and wonder to be had when enjoying wine, whether it be on its own or matched with some morsel of match made in heaven!*

*This list is constantly evolving, as is our journey of discovery in wine. Nothing, besides drinking the stuff, brings us more joy than talking about it – so please feel free to chat about wine in any way, shape or form.....*

*All our wines are carefully curated and respectfully handled for your enjoyment by our team and within our fastidious cellar environments. Please don't hesitate to ask if you would like something "off-list" as the cellar certainly may have some hidden treasures.....*

*Yours in Wine*

*Lou Perri*

## WINES BY THE GLASS & A GLASS DISPENSED UNDER CORAVIN

Put simply, a thin, hollow needle slides through the foil and cork into the bottle. The bottle is then pressurised with argon (a harmless gas sans odor and taste), which pushes wine back out through the needle and into your glass without letting any oxygen into the bottle. Once the needle is removed, argon is left in its place (hence no oxidation), the cork reseals itself and the remaining wine continues to naturally age as if it was never touched. We are delighted to offer these fabulous wines by the glass for your enjoyment

Not surprisingly, this hasn't changed a great deal since my last review except that the length is now even more phenomenal and the supporting tannins are a bit more apparent”(burghound)</i>	
2006 Domaine de la Romanee Conti Echezeaux (Echezeaux)	2600
<i>“Here the less expressive but very floral nose is spicier and ever so slightly riper with a range of black and blue fruit aromas nuanced by hints of earth and a touch of the sauvage that is also picked up by the rich, round and notably pure flavors that are more elegant than usual, all wrapped in a textured and punchy finish that is dry in the best sense and comes across as very clean and crisp. I very much like the overall sense of balance and about the only nit is a trace of backend warmth” (burghound)</i>

*More forward, open and textured, the 2000 Hermitage is an almost promiscuous effort that's just hard to resist. According to Jean-Louis, this wine has never shut down and has always delivered plenty of pleasure. It has classic cassis and blackberry fruit, bacon fat, violets and herbs to go with a full-bodied, layered and seamless, if not voluptuous style on the palate. ## A.P Birks Wendouree Wines (Clare Valley, SA)

---

*For many lovers of big Australian red wines the discussion begins and ends with Wendouree. Truly exceptionally cellar-worthy, these full bodied and gripping red wines are the result of extremely low yields from the very old, unirrigated vines of Shiraz, Malbec, Mataro (Mourvèdre), and Cabernet Sauvignon, many of them growing on untrellised bush-vines. "Iron Fist within a velvet glove" says Halliday. I will not dispute him on this one.....*

*Perhaps you should form your own view on these wines*

## Rockford Wines (Barossa Valley, SA)

---

*Wine is crafted, not created. The skill is to capture and enhance the fleeting flavours that grapes give from their variety and extract from the earth, then bottle these as a living record of the vintage they represent. Rockford wines are made from established Barossa varieties which form an important part of our winemaking heritage, in a style that best reflects the vineyards, the winemaker's attitude and the climate in which we live.....
